CHAIRMAN'S STATEMENT

RESULTS

The Board of Directors of Far East Technology International Limited (the "Company") announces that the audited consolidated net loss attributable to shareholders of the Company and its subsidiaries (together the "Group") for the year ended 31st December, 2001 was HK\$56,675,320 (2000: HK\$92,743,662), with loss per share of 17.1 cents (2000: HK\$29.6 cents).

FINANCIAL RESOURCES AND LIQUIDITY

Borrowings and Charge on Group Assets

The Group's total borrowings amount to approximately HK\$232 million as at 31st December, 2001 (2000: HK\$272 million).

Interest rates were in line with the best lending rates either at prime or based on the Hong Kong Inter-bank Offer Rate.

Gearing Ratio

The gearing ratio (total bank borrowings to shareholders' equity) as at 31st December, 2001 was 75% (2000: 70%).

Current Ratio

The current ratio as at 31st December, 2001 was 0.23 (2000: 0.72). The Group has maintained sufficient liquid assets to finance its daily operations.

Exchange Rate

The Group was not exposed to material exchange rates fluctuations during the year.

BUSINESS REVIEW AND PROSPECTS

The year of 2001 saw some shocking events that no one could have predicted, the September 11 attacks, war on Afghanistan, continuous recession in Hong Kong's economy, etc. In bid to cope with the vast and rapid changes of the world movements and economic cycles, our Group is constantly exploring into different field of industries and business opportunities to catch the next wave of developments, in China and other Asian countries. At the same time, we are strengthening our management team by bringing in people with professional expertise to run the field of new businesses that we are investing into.

Our Group is seeking to offload its non-core assets and reduce expenses in its non-profit making subsidiaries during this recessive environment in the region. All these efforts may result in disappointing results in the short term but we believe that they will be of long-term benefits to the Company and its shareholders. When the market environment becomes more positive, we will be better prepared for the next upwave and increase our shareholders' returns.

Technology Division

The associate company ChinaSoft FE International Information Technology Limited ("CSI") continues to achieve steady growth in terms of revenues and profits. The company as a developer and provider in software products and system solutions in the People's Republic of China ("PRC") is specialized in system solutions for government organizations, private enterprises engaging e-commerce and community services organisations.

CSI is also a pioneer in offering customized solutions for ETDA's (Economic and Technology Development Area) in the PRC with TEDA (Tianjin Economic Technological Development Area) being one of its major clients now. The company is looking to duplicate this system to other ETDA's in the PRC which the company has competitive advantage over its competitors.

The company has planned to list on the GEM board of the Hong Kong market, but there is no concrete timetable of when about it will list. Estimated time schedule is around the 4th quarter of 2002.

Another technology investment that the Group has made, Tricom Cyberworld Holdings Limited is posting disappointing results due to downturn in the demand for system integration and telecom services in Hong Kong. The company is looking to diversify into hardware components manufacturing and looking to expand its sales in the PRC market.

Property Division

The rental incomes from Hong Kong were steady. The Group is looking to convert the Mandarin Theatre in Hunghom, Kowloon into retail shops for better return. The conversion of Golden Flower Theatre, Kwai Chung into commercial usage has been approved. The Group is looking to rent out the premises as retail shop to increase returns.

The market in Malaysia was slow and so was the sales of bungalow in Tuanku Jaafar Golf & Country Resort. We believe that the market sentiment will improve later this year to have better chances for the company to launch the property over there. The Country Resort will carry out further cost-cutting and restructuring plan in order to enhance its performance in the future.

Parkway Centre in Singapore yields steady rental income in the past year and the sale of its office units will continue.

Leisure and Entertainment Division

Rainforest Cafe is posting losses from operation due to a change in the amortization and depreciation provision policy. The company is looking for new partners in other Asian countries to open up new locations in their countries.

Tang Dynasty City has not yet restarted its operations. The company is planning for some new themes for the park and hopefully can resume business on the park soon.

CHAIRMAN'S STATEMENT

Industry Division

Jiangsu Bang Bang Silky Fashion Manufacturer Company Limited again see healthy returns from operation due to strong orders from Japan. The company is planning to further expand its capacity by purchasing new production lines if the sales trend and orders from overseas continue to grow.

Suzhou Goldtract Commodity Concrete Company Limited on the other hand, was operating at a loss again this year. The company is seeking to move its operations to other city and sell the land to interested parties.

The Company has also signed an agreement with Through In Industries Limited for purchase of a controlling stake of an electric power generation company in the Henan Province. Once completed, the board believes that the acquisition will bring in steady revenues as well as profits to the Group.

The Company is consistently searching for promising business investment opportunities in China to diversify its holdings and at the same time to grow with China's surging economy.

Deacon Te Ken Chiu

Chairman

Hong Kong, 23rd April, 2002

The directors present their report and the audited financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31st December, 2001.

PRINCIPAL ACTIVITIES

The Company acts as an investment holding company. The principal activities of its subsidiaries, associates and jointly controlled entity are set out in notes 19 to 21 respectively to the financial statements.

ANALYSIS OF THE GROUP'S LIQUIDITY

TO THE MEMBERS OF
FAR EAST TECHNOLOGY INTERNATIONAL LIMITED
遠東科技國際有限公司
(Incorporated in Hong Kong with limited liability)

We have audited the financial statements on pages 16 to 65 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Companies Ordinance requires the directors to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

BASIS OF OPINION

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants except that the scope of our work was limited as explained below.

An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the circumstances of the Company and the Group, consistently applied and adequately disclosed.

We planned our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. However, the evidence available to us was limited because we were unable to obtain sufficient information and explanations to assess whether any impairment loss should be recognised in respect of the interest in leisure – entertainment complex of HK\$137,000,000 at 31st December, 2001.

In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements. We believe that our audit provides a reasonable basis for our opinion.

AUDITORS' REPORT

QUALIFIED OPINION ARISING FROM LIMITATION OF AUDIT SCOPE

Except for any adjustment that might have been found to be necessary had we been able to obtain sufficient evidence concerning the interest in leisure-entertainment complex, in our opinion the financial statements give a true and fair view of the state of the affairs of the Company and the Group as at 31st December, 2001 and of the loss and cash flow of the Group for the year then ended and have been properly prepared in accordance with the Companies Ordinance.

In respect alone of the limitation on our work relating to the interest in leisure-entertainment complex, we have not obtained all information and explanations that we considered necessary for the purposes of our audit.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

1. GENERAL

The Company is a public limited company incorporated in Hong Kong with its shares listed on The Stock Exchange of Hong Kong Limited.

The principal activities of the Group are property trading, property investment, share investment, merchandise manufacturing, trading of garments and commodity concrete, operation of a golf resort complex, restaurant and amusement park.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

In preparing the financial statements, the directors have given careful consideration to the future liquidity of the Group in the light of its net current liabilities of approximately HK\$256 million as at 31st December, 2001. The directors consider that with the continuing support of the Group's bankers in respect of the existing secured banking facilities, the Group will be able to meet in full its financial obligations as they fall due for the foreseeable future. Accordingly, the financial statements have been prepared on a going concern basis.

3. ADOPTION OF STATEMENTS OF STANDARD ACCOUNTING PRACTICE

In the current year, the Group has adopted for the first time a number of new and revised Statements of Standard Accounting Practice ("SSAPs") issued by the Hong Kong Society of Accountants. Adoption of these Standards had led to a number of change in the Group's accounting policies and introduced additional and revised disclosure requirements. The revised accounting policies are set out in note 4.

The adoption of these new and revised Standards has resulted in the following changes to the disclosure requirements and the Group's accounting policies.

Leases

In accordance with SSAP 14 (Revised) "Leases", some amendments were introduced to the basis of accounting for operating leases, and to the disclosures specified for the Group's leasing arrangements. These changes have not had any material effect on the results for the current or prior accounting periods and, accordingly, no prior period adjustment has been required. Disclosures for the Group's leasing arrangements have been modified so as to comply with the requirements of SSAP 14 (Revised). Comparative amounts have been restated in order to achieve a consistent presentation.

Segment Reporting

In the current period, the Group has changed the basis of identification of reportable segments to that required by SSAP 26 "Segment Reporting". Segment disclosures for the year ended 31st December, 2000 have been amended so that they are presented on a consistent basis.

NOTES

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention, as modified for the revaluation of investment properties and investments in securities.

The financial statements have been prepared in accordance with accounting principles generally accepted in Hong Kong. The principal accounting policies adopted are as follows:

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 31st December each year.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All significant intercompany transactions and balances within the Group have been eliminated on consolidation.

Goodwill

Goodwill (negative goodwill) represents the excess of the cost of an acquisition and the Group's interest in the fair value of the identifiable assets and liabilities of the acquired subsidiary, associate or jointly controlled entity at the date of acquisition.

Goodwill arising on acquisition is capitalised and amortised on a straight line basis over its useful economic life. Goodwill arising on the acquisition of an associate or a jointly controlled entity is included within the carrying amount of the associate or jointly controlled entity.

Negative goodwill arising on acquisitions is presented as deduction from assets and will be released to income based on an analysis of the circumstances from which the balance resulted.

To the extent that the negative goodwill is attributable to losses or expenses anticipated at the date of acquisition, it is released to income in the period in which those losses or expenses arise. The remaining negative goodwill is recognised as income on a straight-line basis over the remaining average useful life of the identifiable acquired depreciable assets. To the extent that such negative goodwill exceeds the aggregate fair value of the acquired identifiable non-monetary assets, it is recognised in income immediately.

Negative goodwill arising on the acquisition of an associate or a jointly controlled entity is deducted from the carrying value of that associate or jointly controlled entity. Negative goodwill arising on the acquisition of subsidiaries is presented separately in the balance sheet as a deduction from assets/as a deduction from intangible assets.

On the disposal of an investment in a subsidiary, an associate or jointly controlled entity, the attributable amount of unamortised goodwill (negative goodwill) is included in the determination of the profit or loss on disposal.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)**Investments in subsidiaries**

A subsidiary is an enterprise in which the Company, directly or indirectly, holds more than half of the issued share capital, or controls more than half of the voting power, or where the Company controls the composition of its board of directors or equivalent governing body.

Investments in subsidiaries are included in the Company's balance sheet at cost less any identified impairment loss.

Investments in associates

An associate is an enterprise over which the Group is in a position to exercise significant influence, including participation in financial and operating policy decisions.

The consolidated income statement includes the Group's share of the post-acquisition results of its associates for the year. In the consolidated balance sheet, interests in associates are stated at the Group's share of the net assets of the associates.

The results of associates are accounted for by the Company on the basis of dividends received and receivable during the year. In the Company's balance sheet, investment in associates are stated at cost, as reduced by any identified impairment loss.

When the Group transacts with its associates, unrealised profits and losses are eliminated to the extent of the Group's interest in the relevant associates, except where unrealised losses provide evidence of an impairment of the asset transferred.

Investments in jointly controlled entities

Joint venture arrangements which involve the establishment of a separate entity in which each venturer has an interest are referred to as jointly controlled entities.

The Group's interests in jointly controlled entities are included in the consolidated balance sheet at the Group's share of the net assets of the jointly controlled entities less any identified impairment loss. The Group's share of post-acquisition results of jointly controlled entities is included in the consolidated income statement.

When the Group transacts with its jointly controlled entities, unrealised profits and losses are eliminated to the extent of the Group's interest in the joint venture, except where unrealised losses provide evidence of an impairment of the asset transferred.

Revenue recognition

Income from sales of completed properties is recognised upon completion of the sales agreement and when risks and rewards of ownership are passed to the buyers. Income from pre-sale of properties under development is recognised over the course of development, by reference to the value of work completed.

NOTES

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Rental income under operating leases is credited to the income statement, on a straight-line basis over the relevant lease term.

Sales of investments are recognised when title to the investments is transferred and the buyer takes legal possession of the investments.

Income from the golf resort complex represents the invoiced value of food and beverage sales, income from membership sales, subscriptions and related services. Sales of food and beverage are recognised when the respective services are rendered while membership sales and subscriptions are recognised when fees are payable by the members.

Dividend income from investments is recognised when the Group's right to receive payment has been established.

Income from trading derivative financial products is recognised when the contract has been concluded.

Sales of merchandises are recognised when goods are delivered and title has passed.

Interest income from bank deposits is accrued on a time basis, by reference to the principal outstanding and at the interest rate applicable.

Property, plant and equipment

Property, plant and equipment other than construction in progress are stated at cost less depreciation and accumulated impairment losses.

Depreciation is provided to write off the cost of property, plant and equipment, other than construction in progress, over their estimated useful lives from the date on which they become fully operational and after taking into account their estimated residual value, using the straight-line method, at the following rates per annum:

Golf resort complex	2% – 20%
Land and buildings in the PRC	over lease term
Amusement equipment	20%
Leasehold improvements	10%
Exhibits, display items, furniture, fittings and costumes	6% – 20%
Lifts, electrical and other equipment	10% – 20%
Trams, coaches and motor vehicles	20% – 30%

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)**Property, plant and equipment**

PRC denotes the People's Republic of China other than Hong Kong Special Administrative Region.

No depreciation is provided on the freehold land of the golf resort complex.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

No depreciation is provided on construction in progress until the asset is completed and put into productive use.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

Properties

(i) Land and buildings in the PRC

Land and buildings in the PRC consist of land use rights and buildings in the PRC. The carrying value includes the cost of land use rights, construction costs, borrowing costs capitalised in accordance with the Group's accounting policy and other direct development expenditure.

(ii) Golf resort complex

The golf resort complex consists of freehold land and buildings erected thereon and is stated at cost to the Group. The carrying value of the golf resort complex includes land cost, construction costs, borrowing costs capitalised in accordance with the Group's accounting policy and other direct development expenditure.

(iii) Construction in progress

Construction in progress represents the direct cost of construction of factory buildings, plant and machinery and other assets and will be reclassified to the appropriate categories of assets on completion.

Impairment

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another Standard, in which case the impairment loss is treated as revaluation decrease under that Standard.

NOTES

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment (continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another Standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that other Standard.

Land held for development

Land held for development for purpose not yet determined is stated at cost less any identified impairment loss.

Investment properties

Investment properties are completed properties which are held for their investment potential, any rental income being negotiated at arm's length.

Investment properties are stated at their open market value based on independent professional valuations at the balance sheet date. Any revaluation increase or decrease arising on the revaluation of investment properties is credited or charged to the investment property revaluation reserve unless the balance on this reserve is insufficient to cover a revaluation decrease, in which case the excess of the revaluation decrease over the balance on the investment property revaluation reserve is charged to the income statement. Where a decrease has previously been charged to the income statement and a revaluation increase subsequently arises, this increase is credited to the income statement to the extent of the decrease previously charged.

On disposal of an investment property, the balance on the investment property revaluation reserve attributable to that property is transferred to income statement.

No depreciation is provided on investment properties except where the unexpired term of the relevant lease is 20 years or less.

Properties under development for sale

Properties under development for sale are stated at the lower of cost and net realisable value. Net realisable value represents the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

The cost of properties under development for sale includes land cost, construction cost, borrowing costs capitalised and other direct development expenditure.

When the property under development is sold in advance of completion, profit is recognised and calculated on a percentage of completion basis when the construction has progressed beyond the preliminary stage of development. The percentage used is based on the proportion of construction cost incurred up to the balance sheet date to estimated total construction costs.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)**Interest in leisure-entertainment complex**

The cost of the leisure-entertainment complex includes construction costs, other direct development expenditure, overheads and other associated costs attributable to the development project.

Investments in securities

Investments in securities are recognised on a trade-date basis and are initially measured at cost.

Investments other than held-to-maturity debt securities are classified as investment securities and other investments.

Investment securities, which are securities held for an identified long-term strategic purpose, are measured at subsequent reporting dates at cost, as reduced by any impairment loss that is other than temporary.

Other investments are measured at fair value, with unrealised gains and losses included in net profit or loss for the period.

Leased assets

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership of the assets concerned to the Group. Assets held under finance leases are capitalised at their fair values at the date of acquisition. The corresponding liability to the lessor, net of interest charges, is included in the balance sheet as a finance lease obligation. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are charged to the income statement over the period of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

Foreign currencies

Transactions in foreign currencies are translated at the rates ruling on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are re-translated at the rates ruling on the balance sheet date. Profits and losses arising on exchange are dealt with in the income statement.

On consolidation the financial statements of subsidiaries, associates or jointly controlled entity which are denominated in currencies other than the Hong Kong dollar are translated at the rates ruling on the balance sheet date. All exchange differences arising on consolidation are dealt with in reserves.

NOTES

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

The charge for taxation is based on the results for the year as adjusted for items which are non-assessable or disallowed. Timing differences arise from the recognition for tax purposes of certain items of income and expense in a different accounting period from that in which they are recognised in the financial statements. The tax effect of timing differences, computed using the liability method, is recognised as deferred taxation in the financial statements to the extent that it is probable that a liability or an asset will crystallise in the foreseeable future.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost, which comprises all costs of purchase and, where applicable, costs of conversion and other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Derivative financial products

Derivative financial products consist of foreign exchange contracts, options and futures contracts. Transactions undertaken for trading purposes are marked to market value and included in derivative trading account under current assets or liabilities. The gains or losses arising therefrom are recognised in the income statement as they arise.

Retirement benefits schemes

Retirement benefit costs charged to the income statement represent the Group's contributions payable in respect of the current year to the retirement benefits scheme.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

5. TURNOVER

Turnover represents the aggregate of gross proceeds from sales of properties, merchandise and investments in securities, dividend and interest income, consultancy income, gross rental income, gross income from the operation of the golf resort complex, restaurant and gross income from amusement park during the year as follows:

In 1994, the Group entered into a building agreement with Singapore Leisure Industries Pte. Ltd. ("SLI") under which the Group would construct on land owned by SLI the building structure of a leisure-entertainment complex, known as the "Tang Dynasty City", in exchange for a 30 years lease to operate the leisure-entertainment complex.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

18. INTEREST IN LEISURE-ENTERTAINMENT COMPLEX (continued)

In 1996, the Group entered into a sale and purchase agreement with Admiralty Leisure Pte. Ltd. ("AL") to sell in three phases its interests in the building agreement in respect of the leisure-entertainment complex. At this time, a new building agreement with precisely the same terms, was entered into between AL and SLI. Then in 1997, the Group entered into a deed of assignment with AL whereby AL agreed to assign to the Group, in certain circumstances, all the rights, benefits and advantages in connection with the interest in building agreement and leisure-entertainment complex.

In 2000, the Group completed the final sale to AL for a net receivable of HK\$137 million resulting in the recognition of an impairment loss of HK\$153,576,789.

During 2001, AL was put into liquidation. Under the terms of the deed of assignment referred to above, the failure of AL to repay the receivable to the Group, constituted a circumstance triggering the assignment of the interests in the building agreement and the leisure-entertainment complex to the Group. Such interest has accordingly, been included in the Group's balance sheet as at 31st December, 2001 at an amount equal to the net consideration of HK\$137 million.

Following the liquidation of AL, the leisure-entertainment complex was handed back to SLI under a court order. Against this background, the directors are currently negotiating with SLI the terms of a revised building agreement, and in particular, regarding the usage of the leisure-entertainment complex and the lease term. The Directors are of the opinion that the Group's interest in the leisure-entertainment complex is worth at least its carrying value.

	-	-	(11,910,824)	(12,887,081)

Net unprovided deferred tax asset has not been recognised in the financial statements as it is not certain that the deferred tax asset will be utilised in the foreseeable future.

TO THE FINANCIAL STATEMENTS

For the year ended 31st December, 2001

33. DEFERRED TAXATION

The amount of the unprovided deferred taxation charge (credit) for the year is as follows:

	THE GROUP	
	2001 HK\$	2000 HK\$
Tax effect of timing differences because of:		
Excess of tax allowances over depreciation	424,104	716,650
Tax losses arising	(6,117,601)	(15,425,707)
Changes in tax rates	(180,412)	180,412
	<u>(5,873,909)</u>	<u>(14,528,645)</u>

Deferred taxation has not been provided on increase arising on the revaluation of investment properties as profit or loss arising on the disposal of these assets would not be subject to taxation. Accordingly, increase arising on revaluation does not constitute a timing difference for tax purpose.

For the year ended 31st December, 2001

43. MATERIAL LITIGATIONS

- (1) In 1995, the subsidiary in Malaysia was named as defendants in legal proceedings pertaining to the question of rights and interests in the shares of Seremban Golf Resort Berhad ("SGR"). The principal allegation by the plaintiffs, representing approximately 29.9% of the shareholdings in SGR, is that the defendants are in breach of certain clauses of the shareholders' agreement in respect of the sales and purchase of shares in SGR. The plaintiffs claimed that on account of the said breach, they were entitled to re-acquire their previous shareholdings in SGR from the defendants. The net asset value of SGR as at 31st December, 2001 was approximately RM11 million, equivalent to approximately HK\$22 million.

In 1996, the plaintiffs' applications for injunction orders have been dismissed with costs and the suit was ordered to be stayed pending arbitration. As at 31st December, 2001, the plaintiffs still have not taken any steps to refer the matter to arbitration. Therefore, the directors are of the opinion that there were no material direct or contingent liabilities arising from the aforesaid litigation at the balance sheet date.

- (2) On 30th November, 1999, a corporation in which certain shareholders of SGR have interest served a notice pursuant to Section 218 of the Malaysian Companies Act, 1965 to recover an alleged claim in the amount of HK\$10,025,484 for which provision has been made and included under trade and other payables.

The Group has however denied that the alleged debt is due and has instituted cost proceedings for inter alia a declaration accordingly. On 15th November, 2001, the court of Appeal had issued an injunction restraining the winding up petition against SGR until the dispute is disposed of by way of trial.

- (3) A contractor for SGR had taken legal action to recover a sum of HK\$5,048,452 (included under trade and other payables) which the contractor alleged to be due and owing under a settlement agreement dated 10th October, 1997.

SGR is contesting the same and alleged that the works completed by the contractor are defective and have also risen to encroachment upon neighbouring lands. SGR had filed an application to stay the proceedings for reference to arbitration and is presently appealing against the High Court order dismissing the application. In the meanwhile, the High Court has granted an order staying the court proceedings pending appeal. This case is fixed for mention on 28th August, 2002.

44. POST BALANCE SHEET EVENT

A conditional sale and purchase agreement were signed between the Company and an independent third party on 29th December, 2001. Based on the agreement, the Company agreed to acquire 80% equity interest in a joint venture company at a consideration of HK\$125 million to be satisfied by the allotment and issue of 125 million shares of the Company at par value of HK\$1 each. The completion of this transaction is subject to the satisfactory results of a due diligence review to be performed by the Company. As at the date of this report, the transaction has not yet completed.

45. RECLASSIFICATION

The directors considered that the Group's interest in certain entities which have been consolidated in last year's financial statements are to be reclassified as interest in associates in the consolidated balance sheet. No adjustment had been made to the financial results of the Group as the financial effect is considered to be not significant.
