BUSINESS REVIEW AND PROSPECTS

Corporate Results

Turnover for the six months ended 30th June, 2000 was HK\$66,939,000 as compared to HK\$41,894,000 in the corresponding period of 1999, an increase of 60%. Loss for the period was mainly due to the decrease of unrealised holding gain on investment in securities.

Hong Kong

The rental income being derived from the investment properties in Hong Kong was somewhat affected by the continued consolidation of the property market. We have converted the Golden Dragon Theatre, Waldorf Theatre and Warwick Theatre into commercial usage and continued to study the feasibility of other modification of the cinemas within the Group.

The investment in Tricom Cyberworld Holdings Limited (“Tricom”) was completed in July 2000. We expect a high growth in revenue income from Tricom and we believe the investment will provide a good contribution to the Group’s earnings.

We will continue our constant search for good investment opportunities in the technology sector in China and Hong Kong SAR.

China

The Group’s joint venture garment factory in Jiangsu performed satisfactorily and continued to have profit contributions during the period under review. However, the ready-mix concrete factory in Suzhou has incurred a loss due to the severe competition and

general over-supply of concrete products in China. For the purpose of enhancing its competitive position, appropriate measures will be taken to improve its production capacity and to strengthen its costs control.

The performance of Lai Chi Kok Amusement Park in Haimen, Jiangsu was fair and the Group is confident that the park will soon operate profitably in view of the increasing number of visitors during the period.

With regard to the technology section, the joint venture with China National Computer Software and Technology Services Corporation is progressing well. It is anticipated that the success of the joint venture will have substantial contribution to our Group's earnings.

Singapore

During the period, the Parkway Centre continued to generate steady rental income, and we are trying to launch the sale of office units to the market.

The Rainforest Café, our Group's first theme restaurant in Singapore, commenced operation on 18th April, 2000. It is expected that the restaurant would soon be contributing earnings to our Group.

Malaysia

The Malaysian property market has improved steadily during the period. The sale of high-end bungalows has been promising. It is expected that the improved market sentiment would help us significantly in getting the return on our investment in Malaysia.
